Notes:

- For all line items denoted with an asterisk (*), charges will be based on the metered quantities at the customers premises, adjusted for losses associated with the delivery of electricity. The loss adjustment factors are as follow:

- Secondary metered customer less than 5,000 kW:	1.0549
- Primary metered customer less than 5,000 kW:	1.0444
- Secondary metered customer greater than 5,000 kW:	1.0145
- Primary metered customer greater than 5,000 kW:	1.0045
- The SSS Administration Charge does not apply to customers whose electricity is provided under a sales contract with a licenced retailer.
- Electricity prices will be based on the Hourly Ontario Electricity Price (HOEP) as established by the Independent Electricity System Operator, unless they qualify for price protection rates or are registered with retailer.
Non-designated customers will receive the Provincial Benefit and the OPG Rebate.
- Transmission Network charges are based on the greater of the peak kW demand or 90% of the peak kVA demand as established between the weekday hours of 7 a.m. and 7 p.m.
- Transmission Connection and Company 2 Delivery charges are based on the greater of the peak monthly kW demand or 90% of the peak monthly kVA demand.
- The Debt Retirement Charge pays down the debt of the former Ontario Hydro.
